

Auxiliary products

Overview

Auxiliary products

Customer-designed solutions out of one hand

Release Agents

- Lower maintenance costs, longer service life of toolings and patterns by reduction of bond

Adhesives

- Wide range of products suitable for air-drying, oven-drying and microwave-drying

Cleaners

- Reduction of cleaning time due to highly effective products

Core Putty Fillers (CPT)

- Cores and molds with little defects can be repaired easily.

Cope Seals

- Prevent leakages from the mold through the mold joint, particularly in the ingate area.

Vents

- High quality 3-piece core box vents with high pen areas

Auxiliary product programme

Product		Type	Remarks
Release agents	Cold Box processes	ECOPART™ 756	Release agent for all gas curing processes containing highly flammable solvents
		ECOPART™ 56 (D)	Aerosol can of ECOPART™ 756
		ECOPART™ 46	Release agent for Cold Box process containing combustible solvents
		ECOPART™ CB H 18350	Water-based release agent for Cold Box process
		ZIP SLIP™ 157 H	Standard release agent for all gas curing processes; 100% concentrated material
	No-Bake processes	ECOPART™ LP 89	Filled with Aluminium mica
		ECOPART™ 80 S	Transparent blue wax; low concentration
		ECOPART™ 84 S	Transparent blue wax; low concentration
		ECOPART™ 102 C	Transparent (100% concentrated material)
	Hot-curing processes	ECOPART™ H1-350	Dilutable with water to lower concentration
		ECOPART™ H2-350	Dilutable with water to lower concentration
		ECOPART™ H 17-250	Ready for use
	Bentonite-bounded/Green sand processes	BENTOGLISS®*	Free of solvents; free of odor
Cleaners	ZIP CLEAN™ 800	Highly effective cleaner	
	ZIP CLEAN™ CB 18	Free of NMP; free of NEP	
Adhesives	ASKOBOND™	Various products on customer demand	
Core Putty Fillers	Core Putty Filler	Various products on customer demand	
	ASKOPASTE	Various products on customer demand	
Cope Seals	ASKOROPE	Liquid cope seals on customer demand	
Vents	ISOVENTS™	Superior core box vents
