

EXACTCAST KIM (EX / EXF / IN)

Cold Box bonded, highly exothermic or insulating insertable riser sleeves for iron, cast steel and non-ferrous metals

Riser Types & Dimensions

- Insertable riser sleeves with the advantages of the mini-riser technology
- Improved yield thanks to lower liquid iron content
- Available in fluorine-free (EXF) and low-fluorine (EX) formulations
- Excellent dimensional accuracy, ideal for insertion

Insertable mini-riser sleeves for EXACTCAST KIM are available in the following dimensions and packaging:

Type	Module	Riser capacity		Riser dimensions						Packaging
		exoth. cm	Volume dm ³	Weight kg	Ø D _o mm	Ø D _u mm	Ø d _u mm	Ø d _o mm	H mm

EXACTCAST KIM (EX / EXF / IN)

Technical & Ecological Advantages

- Suitable for gray iron, ductile iron, malleable iron and cast steel
- Ideally suited for automatic molding lines and for molding operations and inserting
- Fiber-free (important for health & safety at work)
- By using fluorine-free risers, the sand system is free from fluorine contaminants

Product Storage Conditions

- 36 months (if stored in dry conditions and intact original packaging)
- Protect from moisture
- Keep away from open flames and other ignition sources
- Read the Material Safety Data Sheet
