

ECOPART 56 D

Special release agent for all gas-curing processes

Product Properties

ECOPART 56 (D) is an environmentally compatible release agent based modified polysiloxanes and additives, diluted in highly volatile aliphatic hydrocarbons. ECOPART 56 (D) should be sprayed on as thinly as possible. ECOPART 56 (D) has a strong release effect, a long bench life on the core box and core box cleaning properties without having a negative effect on the core surface.

Analytical values

- Modified polysiloxanes and additives in solvents
- State: Liquid
- Color: Colorless
- Odor: Typical
- Solids content: 16.9 – 18.9%
- Flash point DIN 51755: <- 20 °C

Storage & Handling

- Product Storage Conditions: 24 months (< 25°C)
- Keep away from sources of ignition
- NO SMOKING
- Ensure good room ventilation

Packaging

- Aerosol spray
- Labelling: Please refer to the Safety Data Sheet
