ECOCURE™ BLUE

Latest Cold Box platform technology

The ECOCURE™ BLUE platform technology is the world's first Cold Box part 1 that is not classified as a hazardous material* which is a major improvement in the environmental sustainability of the Cold Box process.

Advantages at a glance

- Free of hazardous ingredients*
- Can be combined with ECOCURE™ HE binder
- Combines the advantages of ECOCURE™ HE Cold Box binders with high environmental compatibility
- Free phenol < 1 %, Free formaldehyde < 0,1 %
- Savings with logistics and storage

Compared to a conventional binder system, without any harmful ingredients*

OEL = Occupational exposure limit value

Consistent development of the ECOCURE™ High-Efficiency binder through combination with the ECOCURE™ BLUE platform

ECOCURE™ High-Efficiency ➤➤ **2008 ECOCURE™ HE**
➤➤ **2011 ECOCURE™ HE LF**
➤➤ **2015 ECOCURE™ BLUE HE**

* According to the CLP regulation
