# **ASK Chemicals**

## **Second Quarter 2026 Results**

September 8<sup>th</sup>, 2026

# Highlights Q2/2026

**Volumes** were down 4.5% relative to Q2/2025, ending at 69.9 ktons, though mainly driven by lower profitability industrial resins product lines in South America and Asia.

**Adjusted Revenues** increased 5.3% relative to Q2/2025, ending at €151.8 million.

**Further Adjusted EBITDA** increased €4.8 million relative to Q2/2025, ending at €25.1 million, resulting in LTM EBITDA of €87.0 million.

**Adjusted Free Cash Flow** was €20.1 million during the second quarter and €24.3 million year to date. Strong EBITDA performance more than offset the continued investment in working capital required to support higher raw material prices and increased sales activities. Cash generated during the quarter was used to fund rightsizing payments (€1.0 million), pay the bi-annual bond interest payment (€16.3 million) and make an additional contribution above the €50 million additional bond tap in order to fully repay the PIK indebtedness (€9.3 million).

**Cash** and cash equivalents of €25.6 million.

**RCF** undrawn at €40.0 million.

On June 30, 2026, the Group successfully executed a **€50 million bond tap** transaction. Proceeds were up streamed to the holding company and used to repay outstanding PIK indebtedness, contributing to a simplified capital structure.

## CEO, Luiz Totti commented

Our second quarter results demonstrate the resilience of ASK Chemicals' business model and the benefits of the transformation actions implemented over the last several years. During the quarter, we delivered revenue growth, EBITDA expansion and strong free cash flow generation while maintaining a fully undrawn revolving credit facility.

The geographic diversity of the business was also showcased during the quarter. While performance in North America has been slow year-to-date driven by macro-economic factors and a temporary permitting issue between North America and Mexico (which has been resolved), EMEA, South America, and APAC all performed strongly during the quarter and were above prior year.

The geopolitical situation in the Middle East continues to create raw material cost inflation and supply chain challenges across the industry. We have responded with pricing actions, surcharges, active sourcing management and disciplined working capital control. While temporary timing differences may create modest margin pressure in the short term, we expect to substantially recover increased input costs over time.

Working capital remains an area of focus. While higher raw material costs and improved commercial activity required additional investment in inventories and receivables during the first half, we delivered a strong working capital performance in the second quarter and generated meaningful cash flow despite these headwinds. We remain focused on improving cash conversion through disciplined inventory and receivables management as we move through the remainder of the year.

Finally, during the quarter, we successfully completed a €50 million bond tap transaction and fully repaid the HoldCo PIK instruments. This simplified our capital structure and was achieved without drawing on the RCF, reflecting the strength of the business' cash generation capabilities.

# Performance Q2/2026

Note: Corporate P&L, which is consolidated into total EBITDA for the period, is not shown above

## Regional Performance Q2/2026 (2/2)

**EMEA:** Revenue increased 3% to €51.4 million with volumes remaining broadly flat. EBITDA increased in the quarter by €2.1 million versus prior year supported by pricing initiatives, manufacturing efficiencies, and lower SG&A resulting from continued transformation cost savings. Certain large customers remained cautious amidst the volatile macro backdrop.

**North America:** Revenue increased 3% to €42.4 million while volumes were down approximately 1%. EBITDA was impacted by unfavorable FX, customer mix, and temporary permitting-related freight costs in Mexico. Permitting issues have been resolved and pricing actions continue to address raw material inflation.

**South America:** Revenue increased 7% to €30.7 million despite lower volumes from industrial resins. Strong product mix, pricing actions and cost control drove EBITDA improvement versus prior year.

**APAC:** Revenue increased 11% to €27.3 million despite lower volumes, though mainly from lower profitability industrial resins. EBITDA improved through favorable product mix, chemicals growth and higher pricing. Regional performance benefited from strong demand in India and Korea as well as customer pre-buying related to supply chain concerns.

**Corporate:** Transformation actions continue to reduce the cost base, with Group SG&A materially below prior year levels while supporting EBITDA expansion.

# Cash Flow Q2/26

Cash Flow | YTD | mEUR | as of Jun, 2026

## Cash

**25.6** (-1.6)

ΔCash

Cash (YE | PY)

27.2

## Cash Flow Bridge

- Adjusted Free Cash Flow totaled €20.1 million in Q2 and €24.3 million year-to-date. Strong EBITDA generation during Q2 more than offset continued investments in working capital associated with higher raw material prices and increased business activity.
- Cash balance closed at €25.6 million. The quarter included several significant financing-related cash outflows, including the semi-annual bond interest payment (€16.3 million) and a €9.3 million contribution toward the repayment of HoldCo PIK indebtedness following the completed bond tap transaction. These outflows were partially offset by the re-upping of the €5.3 million Mexico mortgage financing at attractive rates.
- Year-to-date working capital has increased in support of higher raw material costs and sales activity; however, second quarter working capital performance represented a significant improvement versus the first quarter and contributed positively to quarterly cash generation.
- Liquidity remained strong with a fully undrawn RCF at quarter-end.

# Earnings Call Q2/2026

A conference call and webcast is scheduled for **3.00pm CET** on **Tuesday 8 September, 2026**.

Further details can be found in the Investor Relations section on the Company's website: [Investor Relations: ASK Chemicals](#)

A large, white industrial robotic arm is the central focus, positioned in a factory environment. The arm is complex, with various joints and sensors visible. In the background, other industrial equipment and a worker in a blue uniform are partially visible, though out of focus. The lighting is bright and industrial. A semi-transparent white rectangular box is overlaid on the left side of the image, containing the word 'Appendix' in a dark blue, sans-serif font.

# Appendix

# Definitions of non-IFRS measures

**“Adjusted EBITDA”** means EBITDA adjusted for certain managerial adjustments. Adjusted EBITDA on a geographical segment basis is presented before intragroup eliminations and excludes EBITDA from the corporate level which cannot be allocated to a certain geographic area.

**“Adjusted Free Cash Flow”** means Adjusted EBITDA less Capital Expenditure less Change in Net Working Capital and Other Assets/Liabilities less Taxes.

**“Adjusted Revenue”** means reported revenue less revenue from certain tolling arrangements entered into in 2021 in Brazil with a third party. We present Adjusted Revenue and certain other metrics and financial information that use Adjusted Revenue as a base as we do not consider these tolling obligations to be a core part of our business. Products sold under this tolling arrangement are sold at cost and therefore do not contribute to our gross result. Accordingly, we believe that Adjusted Revenue and the related metrics are a better indicator of our actual revenues.

**“Available Liquidity”** means Cash and cash equivalents plus unused RCF in Cash and Non-cash.

**“Change in Net Working Capital”** means the operating cashflow relating to the sum of the increase or decrease in inventories, the increase or decrease in accounts receivables before factoring and the increase or decrease in accounts payable, for the relevant period.

**“EBITDA”** means group result excluding income taxes, net finance costs, depreciation of property, plant and equipment & right-of-use assets and amortization of intangible assets.

**“Further Adjusted EBITDA”** means Adjusted EBITDA less EBITDA attributable to the divested Metallurgy business line.

**“Net Working Capital”** means inventories plus accounts receivable before factoring less accounts payable.

**“Volumes”** means the weight of our products shipped within a period, expressed in kilotons, and excludes our Cores, Risers & Filters, which are sold on a unit and not volume basis, as well as Sand products, which are sold in limited volumes, are highly weight-intensive and low-margin, and would otherwise distort period-on-period volume comparability.

# Forward-Looking Statements

This communication and other written or oral statements made by or on behalf of ASK Chemicals contain forward-looking statements. In particular, statements using words such as “may,” “seek,” “will,” “likely,” “assume,” “estimate,” “expect,” “anticipate,” “intend,” “believe,” “aim,” “predict,” “plan,” “project,” “continue,” “potential,” “guidance,” “foresee,” “might,” “objective,” “outlook,” “trends,” “future,” “could,” “would,” “should,” “target,” “on track,” or their negatives or variations, and similar terminology and words of similar import, generally involve future or forward-looking statements. Forward-looking statements reflect ASK Chemicals’ current views, plans or expectations with respect to future events and financial performance. They are inherently subject to significant business, economic, competitive and other risks, uncertainties and contingencies. The inclusion of forward-looking statements in this or any other communication should not be considered as a representation by ASK Chemicals or any other person that current plans or expectations will be achieved. Accordingly, you should not place undue reliance on any forward-looking statement. Forward-looking statements speak only as of the date on which they are made, and ASK Chemicals undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise, except as otherwise required by law.

# About ASK Chemicals

ASK Chemicals Group, headquartered in Hilden near Düsseldorf (Germany), is one of the world's leading suppliers of specialty chemicals and consumables.

ASK Chemicals' comprehensive product portfolio is organized into three divisions: Chemicals, Materials and Industrial Resins. The products in our (i) Chemicals division include a broad spectrum of chemical consumables and binders for core and mold-making, (ii) Materials division include cores, risers, and filters which are applied during the casting process and (iii) Industrial Resins division include phenolic and alkyd-based resins to coat fertilizers for controlled release, resin emulsions for a broad range of applications (such as paints), and a wide range of phenolic resoles and novolacs for various industrial applications.

ASK Chemicals has sales in over 70 countries and had approximately 1,350 full-time employees as of December 31, 2025. The Company considers itself a driving force in industry-specific innovations, with research centers and laboratories in Europe, Asia, the Americas, and Africa.
