

EXACTCAST KIM-QM (EX / EXF)

Cold Box bonded, highly exothermic, fiber-free, riser sleeves for iron and cast steel

Riser Types & Dimensions

- Available in fluorine-free (EXF) and low-fluorine (EX) formulations
- Ideally suited for high-pressure molding lines
- Very small contact area
- Extremely lightweight

EXACTCAST KIM-QM are available in the following dimensions and packaging:

EXACTCAST KIM-QM (EX / EXF)

Technical & Ecological Advantages

- Exactly defined breaker edge makes breaker cores redundant
- Fix pins
- No contact between casting and exothermic material
- Minimizes fettling and blasting costs
- Excellent dimensional accuracy, ideal for insertion
- Additional insulation effect
- Reduced graphite degradation with fluorine-free mini-riser types
- By using fluorine-free risers, the sand system is free from fluorine contamination

Product Storage Conditions

- 36 months (if stored in dry conditions and intact original packaging)
- Protect from moisture
- Keep away from open flames and other ignition sources
- Read the Material Safety Data Sheet
