

„After 12 years I am now part of the global Master Data Management team. I am very pleased that ASK Chemicals gave me the chance to make this change.“

*Jitka Fialova, Master Data Management,
ASK Chemicals*

SHAPING THE FUTURE TOGETHER!

Senior Tax Manager (m/f/d)

ASK Chemicals is one of the world's leading suppliers of chemicals and materials for the foundry industry. With research and development locations in Europe, America and Asia, we see ourselves as a driving force behind industry-wide innovations. Our extensive product and service portfolio is characterized by both sustainability and efficiency.

With more than 1.500 employees worldwide, we shape the future of our company together. At ASK Chemicals, we work in international and interdisciplinary teams on a wide range of tasks with great scope for decision-making and short decision-making paths. Flexible work and the special attention we pay to the well-being of our employees distinguish ASK Chemicals as a modern employer.

We are looking at the earliest opportunity at our headquarters in Hilden for a **Senior Tax Manager (m/f/d)**

Your responsibilities:

- Developing and executing a global tax strategy, in consultation with the CFO
- Performing autonomously international and domestic tax planning
- Recommending actions to optimize aspects of internal tax policies
- Providing value-added insight and advice on tax implications of business decisions
- Developing, implementing and maintaining a comprehensive transfer pricing policy
- Supporting the sales & operations managers and the finance department in tax matters related to the international business relations and transactions
- Ensuring and managing compliance with applicable tax regulations
- Supervising and assisting in tax audits to address potential issues, minimize litigations and to achieve the best possible outcome when disputes arise
- Reporting: reports follow-ups on tax compliance across the group, reports related party transactions as required by regulations, compiling country-by-country tax reporting, managing the effective tax rate of the group
- Maintaining relationships with external tax advisors/tax authorities to ensure the highest quality service

Your profile:

- Master's degree in law, economics, ideally with an extra degree in Taxation
- Prior experience (10+ years) in a similar role in a multinational in the producing industry or in corporate taxation at one of the big 4
- Strong understanding of taxes and accounting
- Financial analysis concepts and applications – broad knowledge required in areas such as project analysis (NPV, IRR, payback), operational analysis including currency, M&A analysis, etc.
- Presentation skills and comfortable presenting to all levels of the organization
- Very strong verbal and written communication skills

We offer you an interesting field of activity with extensive independence. Added to this are industry competitive salaries, attractive social benefits from a modern chemical company and good opportunities for professional and personal development.

Please send your informative application documents with your salary expectations and the earliest possible starting date in electronic form (max. 5 MB) to jobs@ask-chemicals.com.
