

# **ECOPART LP 890**

# Release agent for cold and gas-curing processes

### **Product Properties**

ECOPART LP 890 is a release agent for all cold and gas-curing processes.

ECOPART LP 890 is suitable for green sand molds, furan and phenol resins, waterglass, ASKOSET and Cold Box processes. Due to the combination of the solvents, release agent and aluminum paste, an excellent release effect is achieved.

### **Analytical values**

Solvent mixture containing aluminum

State: liquidColor: silverOdor: typical

Solids content: 35 – 38 % (before filling)

Flash point DIN 51755: < 21°C</li>

#### Storage & Handling
